

FISCH-GEWÜRZ

For adding flavour to food

An innovative solution for gourmets!

Seasonings are what we use to give a dish a particular taste. Why not do this for dogs and cats too? As they both love high-quality meat and fish, Anifit has developed a fish seasoning for just that.

It's simple to use, just shake a little of the "seasoning" over the food and give it an even more intense flavour.

Note: Anifit Meat Seasoning and Anifit Fish Seasoning are well suited for use during a change in your cat's diet or as a way of "weaning" your pet off a previously used food product.
