

GERUCHSBEKÄMPFER

Gets rid of unpleasant odours

Eliminate odours and bacteria with the extreme absorbent action of activated charcoal. No aggressive perfumes which may cause headaches or allergic reactions, just a 100% natural odour eliminator.

Stop attempting to cover up unpleasant odours with fragrances and tackle the root of the problem: Allow the activated charcoal to absorb the nasty odours and keep them locked in.

Suitable for sufferers of asthma and allergies and those who react sensitively to fragrances.

RyClean Odour Eliminator is
100 % odour-free,
100 % natural,
100% allergen-free and
completely safe for humans and pets.

Where to use

Can be used anywhere that unpleasant odours occur. Simply remove the RyClean Odour Eliminator-spheres from their protective casings and place them where the unwanted odours are at their most intense. Lasts up to six weeks. Often used against odours from

- Litter trays
- Gym bags
- Cars

- Shoe boxes
- Fridges
- All types of containers

Neutralises odours using natural activated charcoal.

Thanks to a temperature treatment, the absorbency of the activate charcoal is maximised allowing effective absorption of odours.

Application

Place both spheres at the source of the unwanted odours.

Period of use

Depending on the intensity of the odours, the odour eliminator is effective for a period of 4-6 weeks. To increase the product's efficacy, the contents of the spheres can be shaken slightly in order to bring the unused activated charcoal to the surface. This does not release odours and bacteria already absorbed.

Product information

A pack contains 2 spheres with pre-prepared activated charcoal made in Malaysia.
